## The Allen & Karen Stieler Family

The Stieler family has inspired all of us. They have been leaders, supporters and volunteers of our Angora goat industry all of their lives with commercial and registered goats, 4-H projects and school education. Then when we add to that list: the TSGRA Women's Auxiliary, Mohair Council of America, Texas Science Teachers Association, cattle, sheep, management of the range land, sorting of mohair and marketing we easily visualize the complete family business package. Four generations still on the land today!

Mr. & Mrs. Elmer Stieler taught their children how to 'enjoy' working. 'Grandmother' Irene still lives on the ranch at Goat Creek Road. Grandmother, also a quilt maker, finished blankets for all of her grandchildren two years ago. Karen was a Kinsel from Hunt.

Allen probably has attended as many HLRS, TAGRA and winter shows and sales as anyone here today. He and Robin Giles coached the Comfort 4-H teams for many years. Allen has continued to be very active in the MCA. A few years back, a shearing captain commented "Mr. Stieler sure got my crew's attention when he laid down the first nanny to demonstrate exactly how he wanted his goats shorn and not to push too hard with their knee." In the 80's at a TSGRA meeting he and Jess Lockhart were on the program to give advice on adding value to one's mohair clip by sorting. As many of you know, Allen has bought and sold thousands of goats through the markets. Allen is a "real goat man". Fred Speck admires how Allen can rapidly and accurately evaluate goats and pick the best. According to Fred, all Allen needs to judge a major goat show is a cutting chute in the middle of the show ring!

Karen and Allen have really worked together as a team with the family and livestock. In addition, Karen taught chemistry at TIVY. Linda Speck remembers picking up her children at school. "What did you learn today?" The spontaneous reply "Chemical reactions. Mrs. Stieler is great!" Doris Haby reminds us that Karen has done a tremendous job in reaching out with the Women's Auxiliary. Other high school science teachers have mentioned that Mrs. Stieler and her team from the TSGRA were regularly at the Conference for the Advancement of Science Teaching (CAST) explaining the attributes of wool and mohair and why ranching is vital for our nation.

The Stielers have three children, whom we all know, and several grand children that we have seen at the stock shows.

Daughter Pamela and Brian Nentwich of Comfort have two daughters – Jackie and Sabrina. We all remember how great their showmanship skills and 4-H judging were. And their willingness to help others on how to handle their goats. Sabrina recently received one of the prestigious Terry Foundation Scholarships at TAMU. Pamela frequently helps with the TSGRA's booths.

Daughter Carrie and Casey Carter of Denton have three sons – Will, Grant and Creed. Creed is enjoying showing the Angoras. Talk about marketing from the ranch to the consumer. Carrie's resume includes Neiman Marcus, the Dallas Market Center and now the Program Director of the Golden Triangle Mall in Denton.

Son Justin and Meredith of Kerrville have two children – Andrew and Kathryn. They are really getting into the swing of the show ring and the working pens. We all appreciate Justin's marketing experience and service to our industry as a past president of the MCA, manager of Ranchman's Wool & Mohair and now as a mohair buyer for the Seale Firm in the U.K.

We will continue to look forward to the Stieler Family's leadership, friendship and hard work.

Thanks !

## REFERENCE SIRES

### A.B. Hobson & Sons Martysford Stud

**76** (1991) - This buck was sired by K131, the twin to the Martyrsford buck that sold for 110,000 Rand, a world record price. He combined the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

**422** (1991) - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck was well balanced but not flashy. However, he was a "blue blood" stud, he consistently produced quality kids, both straight South African and "cross".

**04** (1993) - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation was near perfect. His offspring have fine fleeces.

**80** (1993) - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really liked this big, tall, long bodied buck.
