## Hayden "Mort" Haby

February 11, 1928 – September 29, 2013

Hayden Haby will be remembered as a great man for several reasons. His life long service as a "teacher" and mentor is remarkable. His first job as a vocational agricultural teacher (Dripping Springs, then Fort Davis) was highlighted with admitting one of the first female students into the Texas FFA program. His move to Rocksprings in 1957 was to a position as a Texas Extension Service Agent (county agent) where he served until 1977. His emphasis was mentoring 4-H "kids" in many different projects, including public speaking, livestock projects, and judging of livestock, grass, wool and mohair. He worked tirelessly with the youth, hours past the usual 8 to 5. His influence is appreciated by his many "students" who are successful now. Another attribute was his generosity. He gave away, sold cheaply, or loaned sheep and goats to both

commercial and registered breeders just to "help" them. His greatest attribute was his honesty. He served as a role model in that regard to all associated with him. His primary love, of course, was his wife Doris, and children Dennette and Hayden Jr. and his namesake H.G. Haby III., sister Venetia Haby, and special kids Dylan and Shae Coates. In a close second was his love of ranching and raising Angora goats and Rambouillet sheep. He ranched in Edwards, Kinney, and Uvalde counties and in Queensland, Australia. He shared his extensive knowledge and expertise with all who asked. His ability to evaluate livestock quickly and accurately was uncanny. He once said "Brooks Sweeten forgot more about Angora goats than most people knew". An addition to that is Hayden Haby knew more about goats than Brooks, only he never forgot anything. He had the brain of a rocket scientist. If his organizational skills had been better, the sky *was* the limit. His commitment to raising "fine haired" Angora goats helped the industry tremendously.

Hayden grew up in Uvalde, Texas on a sheep and goat ranch. He served in the U.S. Army from 1946 to 1947 at Brooke Army Medical Center where he played football with Doak Walker - allowing them to win the national service championship. He played college football at both Southwest Texas Junior College and Texas Tech on an athletic scholarship and graduated from Texas Tech in 1950. He received a Masters degree from Texas A&M University in 1974. In his memoirs he gave credit for development of the Haby & Haby Angora goat flock to several individuals. Foremost, Doris's uncle, Brooks Sweeten. Also Fred & Armer Earwood, Joe Brown Ross, Howard Hay, Mike Pember, Arthur Davis, Bob Davis, W.S. "Bill" Orr,

W.S. Hall, Leslie Pepper, James Wittenburg, Carlton Goldbold, D.L. Cloudt, Lloyd Mitchell Jr., Bill Craddock and Werner Lindig. Hayden developed the first pelleted ration for show Angoras in Texas. He gave the ration to Brooks Sweeten who had Lloyd Mitchell put it in pelleted form. Before other major companies developed rations, breeders from all of Texas were driving to the Mitchell plant in Rocksprings to obtain their feed.

Hayden was one of the founding members of the Haby-Lockhart-Ross (and later Speck) Sale to promote the fine haired aspect of the Angora goat industry. He was also a partner in the 1994 importation of the first stud Boer goats directly from South Africa and the first importation of Angora goats since 1925. He received multiple awards over the years. His sheep and goats won the high indexing Ram and Buck at the Ram and Angora Goat Progeny Tests at the Texas A&M Experiment Station at Sonora, Texas. He was the only breeder to win both the sheep and goat high indexing animal. He won the Hamanaka mohair trophy two years in a row, and the British Mohair Spinners Award four years (the industry's most prestigious event). Goats from his herd have been exported to Madagascar, France, India, Turkey, Mexico, Spain, Canada and Australia. He has judged Angora goat shows in Canada, Australia, France, Great Britain and in multiple states in the United States. At a Angora goat judging school in South Africa, he was the top performer. He and Doris mentored 4-H and FFA foreign exchange students over 25 years from Australia, Peru, South Africa, Spain, and France.

**We are all blessed that Hayden shared his life with us!**

## **REFERENCE SIRES**

### **A.B. Hobson & Sons Martysford Stud**

**76** (1991) - This buck was sired by K131, the twin to the Martyrsford buck that sold for 110,000 Rand, a world record price. He combined the size, muscle, thickness and correctness of a superior meat goat with a typical soft South African mohair fleece.

**422** (1991) - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck was well balanced but not flashy. However, he was a "blue blood" stud, he consistently produced quality kids, both straight South African and "cross"

**04** (1993) - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation was near perfect. His offspring have fine fleeces.

**80** (1993) - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really liked this big, tall long bodied buck.

### **HABY, LOCKHART, ROSS, SPECK**

**HLRS 60** (1995) - Out of 80 and a "Lockdale" doe imported from South Africa, this buck combined a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck's 1999 show circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

**Continued on Next Page**

**HLRS-2- 606** (2002) - This buck had an excellent body conformation with a thick spring of ribs, level rump, and he walked wide. He also carried a uniform, ringlet, yearling fleece. He was out of HLRS 153 (an 04 son) and a Thorn Park stud doe #81.

### CURRENT LIVING SIREs

**HLRS-5-734** - A son of HLRS 606, this is a thick bodied fancy buck with a uniform fine fleece. He is one of the best SA bucks we have raised. His mother is out of HLRS 233 (out of HLRS 422 and the stud Lockdale doe, 93-101.)

**HLRS-7-821** - This buck is sired by HLRS -3-644 (grandson of HLRS 60). He has excellent body conformation and a uniform fleece.

**HLRS-9-002** - This is an embryo buck from goats we purchased at the Mike Hobson dispersal sale in South Africa. He is a big, robust buck with a soft, uniform fleece. He did well on the show string for Tyler. He has produced our best show does.

**HLRS-9-032** - Another embryo buck with a great body and uniform fleece with a distinct lock style.

**HLRS-0-958** - This is a robust buck with a fine, ringlet, kid fleece. His sire is HLRS-7-821.

### Ross Ranch Comments

Our kidding starts about the third week of March thru early May. Most of us in the registered goat business make notes about our individual animals. Listed below are some of the codes that we use in our records. For those who want this info, some are reflected on our individual lots in this catalog. We “bag” out all of our does each year (even the commercial ones) since the udder teat structure plays a very important role in % kid crop raised in the pasture. Likewise, we place a strong emphasis on scrotal size, evenness & skin/mohair cover for fertility. Staple length is measured on the side, rump & britch.

**HLRS-9-022** - 100% S. African genetics with a great body, open face, and a fine, stylish high yielding fleece. You can see some of his yearling bucks that he has bred consistently. He arrived from our Australian embryo transfer project in 2011. The S. African genetics have definitely helped our breeding programs.

**BJD 109** - David Lee Ross selected this Duvall buck at the 2012 TAGRA sale. We appreciated his uniform fine fleece with the extra lanolin and his open face cover. He walked very wide (WW). All of us in the Angora goat industry want to say ‘thank you’ to Judy and Bucky for their years of support of TAGRA and the Performance Test.

### **Speck Ranch Sires:**

**H-584 “Superfine”** - This legendary Haby stud, along with H-787 “Son of Champ”, provided the foundation of our herd. Both bloodlines produced champions for Speck Angoras at all major shows in 1990 through 1999.

**FLS2-404** (1992) - This buck bred true and produced super kids. He had excellent conformation with a wide spring of ribs, wide hindquarters, straight back legs, and strong typical horns. He carried a fine, ringlet yearling grade fleece and was uniform from neck to britch. His sire is 4P-210, grand sire is FLS8-43, and greatgrand sire is H-787.

**FLS1-249** (1991) - This was one of the finest fleeced, most uniform bucks we had. His sire is FLS9-68 and his dam, FLS9-76, is a daughter of “Superfine”. In 1994 he was the first place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

**FLS6-1382** (1996) - When Hayden Haby & Jesse Lockhart saw this buck as a yearling, they called him the “perfect buck”. He had correct horns, thick body, and a fine ringlet long stapled fleece with kid hair. He was a son of 404 and produced many excellent kids.

**FLS8-1810** (1998) - A son of 1382, this buck always carried a fine ringlet kid fleece and produced many excellent kids. He was one of our top producers. His mother was out of 249 and was on the show circuit. She won the Grand Champion Goat of Show in Kerrville in 1997.

**FLS9-2224** (1999) - A son of FLS6-1382, this was a showy, big, extremely fine fleeced uniform ringlet haired buck.

**Continued on Next Page**

**FLS0-2350** (2000) - This was a fine-haired, showy buck, 100% Texan, and was a full brother to FLS8-1810. He produced good kids.

**FLS0-2407** (2000) - Hayden Haby, Jesse Lockhart, and Joe David Ross purchased this buck at the 2001 HLRS sale. Hayden loaned him to me for two breeding seasons. His offspring have very fine uniform fleeces and an open face. He was a son of FLS 1337 (out of 607...404) The buck maintained a ringlet, superkid fleece.

**FLS2-3136** (2002) - This showy buck combines a beautiful fleece with an excellent body conformation. He was a son of FLS0-2593 (son of 1810). He was 100% Texan.

**FLS2-3206** (2002) - This son of FLS8-1810 was 100% Texan and had a very fine fleece.

**FLS2-3214** (2002) - This showy buck had a wide spring of rib and a beautiful ringlet fleece. He was 75% Texan out of FLS0-2593.

**FLS3 3505** (2003) - This son of FLS1-2898 (out of 2224) produced great kids. He was big, robust, open faced, and had a ringlet kid fleece. We kept several bucks he sired over four years.

**FLS4-3866** (2004) - This son of FLS0-2350 had a dense, very long stapled, uniform kid fleece.

**FLS5-4327** (2005) - I loved the fine, ringlet, dense fleece on this showy buck. He was out of FLS9-2224.

**FLS6-4503** (2006) - This was one of our favorite bucks. He was out of FLS3-3505. He was open faced, large, thick and had a fine, uniform, ringlet fleece.

**FLS6-4552** (2006) - This was a big, robust, fine fleeced buck. He was 100% Texan. His sire was 3136 and dam was out of 2224.

**FLS6-4562** (2006) - This 50% Texas buck was out of HLRS-2-606. He was long bodied, thick, large, upstanding and had a ringlet fine fleece.

### CURRENT LIVING SIRES

**FLS7-4846** - This 100% Texan buck has a gorgeous ringlet long staple fleece with 1+ grease. His sire was 2407 and his mother was stud doe 668. (1810, 2350, 2844) He has done well on Tyler's show string.

**FLS8-5056** - His sire was FLS2-3214. He is a large, thick bodied open faced buck with a fine ringlet kid fleece. He is 87.5% Texan.

**FLS8-5072** - This buck's sire was FLS3-3505. He has his father's robust body and has a fine dense fleece. He is 87.5% Texan.

**FLS8-5139** - This fancy buck is in the photo we used on our sale catalog. In 2012 he won Champion Buck as an aged buck at the Kerrville District Show (largest Angora goat show in U.S.). He still carries a ringlet, uniform superkid fleece. He is out of FLS4-3866 and has a thick structurally correct body. He is 81% Texan.

**FLS8-5181** - This is another great bodied son of FLS3-3505 with a fine uniform fleece. He is 84% Texan.

**FLS8-5235** - This open faced, long bodied showy buck is 62.5% Texan. He has a very uniform yearling, long stapled fleece. His sire is FLS6-4562.

**FLS9-5374** - This fancy buck is out of FLS4-3866. He is 84% Texan and has a ringlet superkid fleece.

**FLS9-5406** - This son of FLS3-3505 has an excellent body conformation and a fine ringlet, kid fleece. He is 75% Texan

**FLS9-5678** - This 87.5% Texan buck is an 1810 great grandson. Haby really liked this buck's father, a robust, wild-eyed, crazy, fence jumping buck.

**FLS0-5828** - A son of FLS5-4327, he combines a great body with a fine kid fleece. He is 87.5% Texan.

**FLS0-5942** - This fancy buck has a ringlet kid fleece. His sire is FLS0-2350. He is 75% Texan.

**BREEDER'S GUARANTEE** - Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. No guarantee can be made as to how the goat will cross with your goats. The goats should be allowed adequate time to adapt to their new location after transportation.

**TERMS** are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

**HEALTH CERTIFICATES** - Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

**SHEARING DATES**

Ross -- January 22 unless otherwise noted

Speck-- bucks -- January 4, does -- January 5

**VACCINATIONS** - All Speck goats were vaccinated at 6 months of age for CL and given a booster this summer. As with any vaccine, this will not totally eliminate the disease but will significantly reduce the incidence. At four months of age they were vaccinated with Sore mouth and CDT.

**Even though** we breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make notes of these differences and make visual comparisons of individual animals from within that specific herd.

**40** FLS3 7082 Buck FLS0 5828 FLS9 5486 Speck 90.625% TX \_\_\_\_\_

This buck was on Tyler's show string. We consider him stud potential and almost kept this buck. He was sheared six weeks later than others. He has a dense uniform ringlet fleece with excellent luster. He is showy with correct body conformation. His mother is out of FLS7-4846 and has a ringlet kid fleece.

**41** FLS3 7027 Buck FLS8 5235 FLS9 5404 Speck 75% TX \_\_\_\_\_

This open faced buck was sheared late. He was on Tyler's show string. He has a soft uniform dense kid fleece with good luster. His mother is out of FLS3-3505. She is a big wide bodied doe.

**42** FLS3 6888 Buck FLS8 5235 FLS7 4779 Speck 75% TX \_\_\_\_\_

This big buck has a dense ringlet kid fleece and an open channel around his eyes. He has thick spring of ribs. His mother is out of FLS0-2407, the open faced buck that Haby and Lockhart purchased. His full brother was first place buck kid at the 2014 San Antonio Goat Show and we kept him as one of our top stud bucks.

**43** FLS3 7163 Buck FLS7 4846 FLS8 5122 Speck 75% TX \_\_\_\_\_

This upstanding fancy buck has an open face. He was on Tyler's show string and sheared late. Despite late shearing he has extra staple length and a uniform ringlet fleece with good luster. His mother is out of HLRS5-734.

**44** HLRS 3-165 Buck HLRS 0-958 HLRS 9-006 HLRS \_\_\_\_\_

This open faced buck has an extra wide spring of ribs with a deep body and has a dense, uniform, kid fleece. The sire is the finest and most dense buck we have produced from our "original" importation. The dam is from our recent importation.

**45** FLS3 6916 Buck HLRS 9-002 FLS7 4767 Speck 50% TX \_\_\_\_\_

Preston had this buck in our stud potential pen. He is long bodied, with thick spring of ribs and carries a soft uniform ringlet kid fleece. His father produced our top two showing yearling does in 2014. His offspring improve as they get older. We kept this buck's full brother last year for our stud string.
