Doris Young Haby

Written by Doris Young Haby, May 2023

I was born in 1931 as Doris Etta Young, and at the time we lived on the lower Bacon Ranch in Edwards County, Texas. My mother was Opal Sweeten Young, the daughter of Nona Etta Benskin and Frank Durham Sweeten. Doris' father was Seth Young, the son of Martha Etta Byrd and Edward Sedgwick Young; all Rocksprings ranching families. The Bacon Ranch joined the ranch where Dr. Fred Speck grew up. It is off the highway between Rocksprings and Brackettville.)

During the Great Depression of the 1930s we lost this ranch, and my parents bought a ranch from my father's uncle, J.B. Young. My dad raised Angoras, and we usually had around 1000. Both ranches were very rough and rocky and suitable for Angoras. In 1944, I attended a goodbye party as I set off for the academy, and my mother could not get my father by phone with a weather report. We had a cold rain and lost half of our goats, PROBABLY because I was not there to help. I still feel guilty!! My father never said a word to me. We just rode among the dead goats.

In 1945 my family bought a really fine property 12 miles from Uvalde, and I started to Uvalde High School. When my dad was at the Edwards County property, it was often my sole responsibility to shed the goats; and I had to doctor the wormies. Ugh!

I married Hayden Haby in 1951. He became the Edwards County Extension Agent in March 1957. In Rocksprings we started buying registered Angoras in 1953. We got our start from Uncle Brooks and later added animals from the Boehles in Hondo and the Keese Middle Verde Ranch. In more recent times, we joined with Joe David Ross, Jesse Lockhart, and Fred Speck and imported Angoras from South Africa.

My mother's brother, Brooks Sweeten, really helped my husband as our kids began their Angora goat 4-H projects; we practically lived in his backyard. He was one of one of my husband's many mentors as he became an expert on Angoras and he

served as the Edwards County Extension Agent. Later our son, Hayden, showed our Rambouillet sheep; and our daughter, Dennette, showed our registered Angora goats. This allowed each child to be a premier exhibitor and not have to show against each other. She did very well with our Angora goats, winning many Championship trophies, both with her animals and her animals' fleeces.

My husband had always been interested in the progeny test at the Sonora research station and had helped with the Ram test for years. When the Angora test started, our goats were entered in the test until it ended. We won the British Mohair Spinner's Award six times for our fine haired goats. We also entered the prestigious Hamanaka competition, winning both divisions two years in a row. This was awarded by the Japanese to the highest-quality prepared fine-haired fleeces.

In 1987 my sister and I sold our Australian property, and I invested my money in 5000 acres of ideal ranch land for Angoras in Kinney County. We had around 3000 commercial head of Angoras. In 1998 it rained 22 inches, and we just knew we would lose some goats. There was water everywhere and just pouring into our recharge zone. However, there were no dead goats. Later it was warm and raining, and it didn't quit. The goats had been sheared long enough, but the rain continued. It got down in the 40s and we lost 1200 goats. There were heavy death losses all over the area that year and it hurt our sale.

In 1990, I became Texas Make It With Wool or Mohair Chairman. I asked the *Mohair Council of America* if they would give a prize, and they started out with a \$1000 scholarship at the national level. Fred, Joe David, and I, plus a few others give enough money that three prizes are given at the national contest today. This keeps contestants sewing all over America with mohair.

I served as the *Texas Sheep and Goat Raiser's Auxiliary* president for two years and later as the *American Sheep Industry Auxiliary* president for two years. It was my job in these two organizations to promote wool and mohair. During the time I was working with *Make It With Wool*, I had two national junior winners, one national senior winner, three adult winners (one with a mohair coat), and five Fashion Design winners (one with a mohair suit). This year I lined up two Texans as judges for the national *Make It With Wool* contest in Fort Worth this past January. One was Lee Marie Lee (Jimmie Ruth Evan's daughter), a very new designer on the Texas scene.

My home was always on a horse rounding up Angoras. I didn't much like working and being bossed by my dad or a husband in the goat pen!!

REFERENCE SIREs

A.B. Hobson & Sons Martysford Stud

76 (1991) - This buck was sired by K131, the twin to the Martysford buck that sold for 110,000 Rand, a world record price. He combined the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 (1991) - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck was well balanced but not flashy. However, he was a "blue blood" stud, he consistently produced quality kids, both straight South African and "cross".

04 (1993) - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation was near perfect. His offspring have fine fleeces.

80 (1993) - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really liked this big, tall, long bodied buck.

We are fortunate to have Doris Haby as our 2023 HLRS honoree. Doris is amazing in all she has accomplished. We all enjoy her articles in the *Ranch and Rural Living* magazine. Her involvement in the *Make It With Wool or Mohair* contests has insured the mohair industry has been well represented. She failed to mention in her bio she was an amazing public school teacher.

This year (2023) she was the *Edwards County Old Settler's Queen*!! She has two children, Dennette Haby Orwig and Hayden Haby Jr., and one grandson, Hayden "Griffin" Haby III.
